Group Project 1 – Site Design

Description:

We decided we want to do an e-commerce page that sells Taiwanese snacks and drinks because we are from Taiwan and we want more people to know about and enjoy delicious Taiwanese snacks.

Description:

This is the Login page. Customers can log in to their account or create a new one on this page.↓

The image shows a hand-drawn wireframe of a web page, divided into two sections: 'Login' and 'Placing order'.

Login Section:

- Header: 'Log in:' and 'Login'.
- Navigation: 'Home', 'Categories', 'About', 'Contact us', 'Log in', 'Cart(0)'.
- Form: 'Login here :)' with fields for 'Username', 'Password', and a 'Sign in' button.
- Link: 'Don't have an account? Sign up here ~' with a 'Create new account' button.

Placing order Section:

- Header: 'Cart:' and 'Placing order'.
- Section: 'Shipping information' with fields for 'First Name', 'Last Name', 'Street Address', 'City', 'State' (dropdown), 'Zipcode', and 'Phone number'.
- Section: 'Credit card information' with fields for 'Card number', 'Expiration date', 'CVV/CVC', and 'Name on card'.
- Button: 'Place my order'.

This is the checkout page for the cart. Customers can save their shipping information, credit card details, and billing address on this page.↑

Approach / What we Did:

We designed the layout of the pages in the website and decided on the usage process.

These are expected to be implemented in the second submission. In addition, we expect to use the database to access user information (account, password, purchased goods, address, etc.).

This part will be scheduled to be completed after the second Group Project submission.
